

Midwest® Automate®

Automated Handpiece Maintenance System

Simplifies Handpiece Maintenance for Effective, Long-lasting Performance

Intuitively designed for easy usage, the Midwest® Automate® provides your practice with precise, consistent handpiece cleaning, lubricating, and debris removal. This helps extend the life of your handpieces so they deliver long-term, reliable, efficient performance.

The Automate cleans a wide range of handpieces, and also has a dedicated chuck cleaning port. With its durable, all-steel construction and 3-year warranty, it's built for the long haul to keep working accurately and effectively.

By removing the need for manual handpiece maintenance, it reduces handling time by more than 80 percent. This means you and your staff spend less time on maintenance and more time on what's really important — taking care of your patients.

WHY PROFESSIONALS PREFER AUTOMATE

Efficient

Reduce maintenance handling time by more than 80%, making more time for your patients.

Consistent

Precise lubricating and debris removal for any handpiece by every staff member.

Durable

Rugged design is built for the long haul, with metal casing and locking nuts. 3-year warranty.

EASY-TO-USE CONTROL PANEL

Operating the Automate is effortless with its clean, simple display, bright array of system indicator lights, and one-touch start buttons.

DEDICATED CLEANING PORTS

Three ports with a range of adapters securely hold almost any handpiece, and actuator paddles sense the ports in use. There's also a port just for lubricating chucks.

PREVENT SPILLS & CATCH DEBRIS

DOOR LINING

Rubber seal limits odors and spray fumes in the working area.

ABSORPTION PAD

Catches oil and debris for easy cleanup.

DOOR SAFETY MAGNETS

Holds door shut during maintenance cycles, and prevents operation when opened.

Automate effectively removes debris to promote lasting handpiece turbine life.

Midwest® Plus Automate Spray delivers cleaner and lubricant to handpieces.

COMPLETE CUTTING SOLUTIONS

As a leader in both handpiece and bur manufacturing, Midwest offers the ultimate integration of design, performance, and integrity.

For a virtual bur wallet and utilities program, download the Midwest® Bur Advisor at www.MidwestBurApp.com.
