

A smiling female dental professional with dark hair tied back, wearing black scrubs, stands with her arms crossed in a modern dental clinic. In the background, a computer monitor displays dental X-rays, and a dental chair is visible. The text "PREVENTIVE IS..." is overlaid in large white letters.

PREVENTIVE IS...

THE DENTAL
SOLUTIONS
COMPANY™

 Dentsply
Sirona

The Merriam-Webster Dictionary defines

Preventive is something that prevents;
especially: something used to prevent disease¹

Research shows that dental caries is the most prevalent disease in humans.² Tooth decay is the #1 chronic health condition in children.² And severe periodontal disease is found in 15-20% of middle-aged (35-44 years) adults.² The key to addressing these statistics is through quality preventive care—a continuum of care involving products, solutions, education, training and support all aimed at preventing disease and promoting a lifetime of oral health. At Dentsply Sirona Preventive, we're committed to doing everything we can to support you in that effort.

Preventive is...

COMMITMENT

At Dentsply Sirona Preventive, we empower dental professionals to deliver the best possible dental care, offering them the products and support they need to prevent diseases and improve oral health. The way we see it, every appointment is an opportunity for hygienists and dentists to make a difference each day and for years to come. Because a healthy mouth and a winning smile are valuable assets for life.

“

As a dental hygienist, it is my responsibility to provide my patients with the best care and education. Improving their oral health is my number one goal. It is all about instilling life-long habits to protect their teeth and prevent disease.

Heidi Arndt, RDH
United States of America

Preventive is...

A CONTINUUM OF CARE

The entire preventive procedure involves a careful series of steps that make it possible to diagnose and prevent a wider range of potential problems earlier and with greater accuracy. Our solutions cover the complete continuum of preventive care—to ensure that every step is as effective as possible at preventing disease and promoting better oral health. But the continuum of care extends well beyond the office visit. That’s why we provide a broad range of other resources as well—including training and support for dental professionals, patient self-care education, and more.

Set up

We offer industry-leading products to protect patients from infection—and protect practices from safety and compliance risks.

Diagnosis

More dental professionals rely on our intra-oral imaging accessories to help them diagnose problems earlier and more accurately.

Anesthetics

We offer products that help minimize pain and patient discomfort during procedures like scaling and root planing (SRP).

Scaling

We pioneered innovative ultrasonic solutions to make scaling more effective—and comfortable for patients and professionals.

Polishing

We offer industry-leading products for cleaning and polishing to remove stains and disrupt biofilm—and keep teeth healthy and looking their best.

Treatments

More dental professionals rely on our treatment products for protecting and improving the appearance of patients’ teeth.

Everyday, you touch **million of lives** with our solutions, helping to improve oral health in **over 120 countries**.

Preventive isn’t just what we do for patients during office visits. It involves educating them to be responsible for their own long-time oral health—how to brush and floss properly and eat right, and the importance of regular check-ups.

Dr. Ono, Periodontist
Japan

Preventive is...

INNOVATION

Dentsply Sirona Preventive offers the most extensive line of preventive products in the industry—trusted brands that dental professionals worldwide rely on and that makes a difference to the lives of millions of dental patients throughout the world. As advanced as preventive treatments are today, however, we never stop innovating in our quest for ongoing improvement.

At Dentsply Sirona Preventive, we never stop innovating. Our desire to continually redefine dental care is a shared mission throughout the organization.

Ken Guaragno, Research and Development
Dentsply Sirona Preventive's Global Headquarters

Set up

PracticeProtect™ Range

From masks to disinfecting surfaces to instrument reprocessing, our clinically-proven products help reduce the spread of infectious diseases.

Diagnosis

Rinn® Imaging Accessories

We help dental professionals capture quality diagnostic images more efficiently—whether they're using film, phosphor plates or digital sensors.

Anesthetics

Oraqix® (lidocaine and prilocaine periodontal gel) 2.5%/2.5%

Oraqix, the first and only non-injectable anesthetic, provides pain relief during the scaling and/or root planing procedure.

Scaling

Cavitron®

The Cavitron family of ultrasonic scaling systems and wide insert selection is designed for more effective scaling and comfort for the patient and clinician.

Polishing

Nupro®

Nupro corded and cordless hygiene handpieces and prophylaxis paste, angles and cups help streamline and improve the polishing procedure.

Treatments

Nupro®

The Nupro Treatments portfolio includes various fluoride treatments and whiteners to keep teeth looking and feeling better longer.

Through new product innovations and the integration of legacy Professional, Rinn, Sultan and Pharmaceutical divisions, Dentsply Sirona has grown to become a leader in all aspects of preventive care—a company committed to fostering diagnostic and therapeutic excellence through innovation. Our Rinn brand of imaging accessories helped transform diagnostic procedures. With Cavitron, we introduced the industry's first stand-alone ultrasonic scaling and air polishing systems. And Oraqix, the first and only FDA-approved non-injectable anesthetic, was a major breakthrough in minimizing pain and patient comfort in scaling and root planing. All over the world, dental professionals rely on our scientifically proven and clinically tested products to deliver safer, more comfortable and effective preventive care.

EDUCATION

“

In a field where technology and techniques are continually evolving, we're committed to helping dental professionals gain the knowledge, skills and certification they need to stay up-to-date.

Michele Lash, RDH, BA, Clinical Affairs
Dentsply Sirona Preventive's Global Headquarters

We support you with **over 2,500** educational programs, delivering education and training across the globe.

Each year, Dentsply Sirona helps more than 350,000 dental professionals worldwide gain the knowledge, skills and certification they need to develop and improve their skills and dental practices. Our annual Ultrasonic Scaling Teaching Institute (USTI) provides clinical faculty with resources and expertise to facilitate the instruction of ultrasonic scaling. Our Hygiene Leadership Summits, held twice a year at our York, Pennsylvania headquarters, offer educational and networking opportunities to help hygienists improve their practice. We also maintain a Clinical Education team throughout the world to offer ongoing clinical support, continuing education, hands-on training and resources—all aimed at empowering dental professionals to provide better, safer, faster preventive care.

Preventive is...

A LIFETIME OF ORAL HEALTH

The diagnostics, anesthetics, scaling, polishing and treatment solutions we've pioneered—and the extensive range of products we offer—are all aimed at making every visit as effective as it is comfortable. Only by helping to create the best possible patient experience can we expect patients to keep coming back to achieve the frequency and regularity of dental hygiene visits that are essential. At Dentsply Sirona Preventive, we know that the key to breaking the cycle of oral diseases—and promoting a lifetime of oral health—is quality preventive care. And we're passionately committed to it.
