Dentsply Sirona Solutions Map

The Dentsply Sirona Solutions Map illustrates the commitment of Dentsply Sirona to enable dental professionals to provide better, safer and faster dental care. It also gives a complete overview of the dental solutions from Dentsply Sirona.

Each Line corresponds to a specific dental workflow from start to finish and each station on this line represents the major brand or procedure used at this step. The workflow lines reveal the relationships between procedures and brands and guide you when to change lines.
