Let us support your study

Investigator Initiated Studies program, IIS, is a very important part of the Dentsply Sirona Implants global research program. If you have a study proposal and want to investigate one of our products, we can support the research with products and/or financially. Will your proposal be the next one to qualify?

As a company and manufacturer of premium dental implant solutions, Dentsply Sirona Implants is committed to extensive research. The results from your studies help to increase the knowledge and documentation of our implant products. We highly appreciate your contribution, and so do millions of satisfied patients all over the world.

Research support

The objectives of the study are determined by your own research interest. Today, the ongoing studies cover a variety of research topics and are conducted as clinical studies, case series, in-vitro and mechanical studies.

Available research support from Dentsply Sirona Implants includes products and/or financial support up to a maximum of 49% of your total study cost. Your proposal and study details will be confidential.

A quick admission process

You can easily apply by submitting the application form. We have an ongoing, continuous admission process so you won't have to wait long for a decision. All submitted research proposals are reviewed by our Global IIS Review Committee and you will get an answer within eight weeks. If you have any questions before sending in your application, please don't hesitate to contact us.

IIS travel grant

If an abstract from your IIS is accepted for a poster or an oral presentation at an international congress, you can apply for Dentsply Sirona Implants travel grant.
