# Implant Solutions World Summit 2023

## PRELIMINARY PROGRAM

### THURSDAY JUNE 8, 13.00–17.00

<b>MASTER CLASSES</b> Lecture 13.00–17.00	<b>Ankylos Implant System—esthetic excellence meets digital connectivity</b> <b>Moderators:</b> Marco Degidi, Paul Weigl <b>Speakers:</b> Steven Campbell, Dimitris Charoulis, Ernest Cholakis, Guiseppe Daprile, Peter Gehrke, Matija Gorjanc, Pablo Hess, Jeremy Ueno, Martin Wanendeya
	<b>Contemporary treatment concepts in approaching the edentulous patient</b> <b>Speaker:</b> Barry Goldenberg
	<b>Practice growth in a changing dental market</b> <b>Speaker:</b> Gary Jones
<b>MASTER CLASSES</b> Lecture & Hands-on 13.00–17.00	<b>Implant site preservation and development for increased efficiency and improved clinical outcomes</b> <b>Speaker:</b> Rodrigo Neiva
	<b>Mucogingival approach to soft and hard tissue augmentation with resorbable collagen</b> <b>Speaker:</b> Michele Perelli
	<b>Predictable digital workflows from single tooth to full arch treatment</b> <b>Speakers:</b> Dan Butterman, Douglas Smail
	<b>Hard and soft tissue regeneration around sloped implants placed in extraction sites and healed sloped ridges</b> <b>Speaker:</b> Robert Nölken
18.00–20.00	<b>WELCOME RECEPTION</b>

### FRIDAY JUNE 9, 8.30–17.30

8.30–9.00	<b>OPENING SESSION</b>			
<b>DNA session</b> 9.00–10.15	Aristotle once said “Nature does nothing uselessly.” Let’s look at the importance of heritage, design and the common DNA of dental implants, and how these elements contribute to long-term function, and esthetics—always with science, nature and biology in mind. <b>Moderator:</b> Michael Norton <b>Speakers:</b> Anthony Bendkowski, Lyndon Cooper, Marco Degidi, Malene Hallund			
10.15–10.45	COFFEE BREAK in the Inspiration Hub			
<b>PARALLEL sessions</b> 10.45–12.00	<b>The interdependence of systemic and oral health</b> The mutual dependence of systemic and oral health is well known and requires holistic thinking. Using a multidisciplinary approach to diagnosis and treatment planning provides better understanding to meet the needs of the patient. <b>Moderator:</b> Mariano Sanz <b>Speakers:</b> Emma Ekenstråle, Phoebus Madianos	<b>Preventing peri-implantitis for long-term peri-implant health</b> Today we are treating younger patients with dental implants and the meaning of ‘lifelong’ has changed dramatically. How can we maintain peri-implant health over decades and what can we promise our patients? <b>Moderator:</b> Stijn Vervaeke <b>Speakers:</b> Ausra Ramanauskaite, Kristina Bertl, Nadja Nänni	<b>Managing complications in implant dentistry</b> Biological and technical complications in implant dentistry are an inevitable clinical reality. Should we manage the complications, solve the initial problems, or prevent them from even happening? <b>Moderator:</b> Tara Aghaloo <b>Speakers:</b> Eimear O’Connell, Mark Montana, Todd Scheyer	
	12.00–13.30	LUNCH BREAK in the Inspiration Hub		
	<b>ECOSYSTEM session</b> <b>Inspiration TALKS</b> 13.30–14.45	How do we provide implant treatment to more patients? The answer is simple—digital dentistry. With digital dentistry, we can define the final desired result and plan the treatment needed to achieve it. Discover the expanded solutions that digital connectivity provides and see the result in more satisfied and happy patients. <b>Moderator:</b> Martin Wanendeya <b>Speakers:</b> Mark Ludlow, Veronique Benhamou, Daniel Thoma		
15.00–15.30	COFFEE BREAK in the Inspiration Hub			
<b>CLOUD session</b> 15.30–16.15	What do the words digital, power, open, collaboration, connectivity, platform, support, technology, workflow have in common? They are at the core of the new digital universe and the transformation of the patient journey, from diagnosis to final treatment. <b>Moderator:</b> Max Milz <b>Speakers:</b> Martin Wanendeya, Steven Campbell, Stefan Vandeweghe			
<b>BATTLE session</b> 16.15–17.30	Get ready for two battles, with two speakers in each battle, debating one hot clinical topic. Who’s right, who’s wrong? It’s your decision, your vote, your voice—the countdown is on, place your bets now. <b>Moderator:</b> Mark Ludlow <b>Battle 1:</b> Biomaterials vs implant selection—Rodrigo Neiva vs David Barack <b>Battle 2:</b> Full arch digital vs full arch analogue—Mischa Krebs vs Gary Jones			
20.00–1.00	<b>A GREEK EVENING</b>			

### SATURDAY JUNE 10, 9.00–14.15

<b>PARALLEL sessions</b> 9.00–10.15	<b>Heading for optimal esthetics</b> How do we define and achieve the optimal esthetic results? It’s all about planning, techniques, biological factors and patient expectations—and it involves all members of the treatment team. <b>Moderator:</b> Veronique Benhamou <b>Speakers:</b> Oliver Pin-Harry, Alwin Sokolowski, Chris Barwacz	<b>Is immediate for everyone?</b> Teeth now is what every patient wants. But is immediate implant placement and loading the best solution for everyone? The patient, the implant site, and bone quality are just some of many factors that must be considered. <b>Moderator:</b> Malene Hallund <b>Speakers:</b> Puria Parvini, Taite Anderson, Marco Toia	<b>Controlling risk factors in implant dentistry</b> The compromised patient means a unique opportunity and a tough challenge for the clinician. Where do we draw the line for implant treatment in compromised patients? Discover if and when to say no to implant treatment. <b>Moderator:</b> Barry Goldenberg <b>Speakers:</b> Thomas Hanser, Peter Gehrke, Andy Temmerman
	10.15–11.00	COFFEE BREAK in the Inspiration Hub	
<b>CONTROVERSIES session</b> 11.00–12.00	Guided by an expert panel, let’s go head-to-head with controversies in implant dentistry. Addressing select subjects of contention, experts from each side of the debate will present their point of view in an effort to guide the audience on how to handle such situations in their everyday clinical practice. <b>Moderators:</b> Tara Aghaloo, Michael Norton <b>Panelists:</b> Lyndon Cooper, Mischa Krebs, Clark Stanford, Paul Weigl, Marc Quiryren		
<b>FUTURE session</b> 12.00–13.15	The future is a continuous journey led by our shared passion for implant dentistry and a commitment to science, documentation, education, innovation, and quality of life. Before we go back home, inspired to do even more for the patients that need our help, committed to working even smarter together with our teams, let’s look at how we can create the future together for a better world, not just in implant dentistry but in all walks of life.		
13.15–14.15	LUNCH		

#### Scientific Chairs
