# Repair procedures

The Astra Tech Implant System EV proved a selection of unique products for safe and easy handling when meeting specific failures and other errors in the clinical situation. For different reasons abutments, implants or screws occasionally need to be removed and/or replaced.

The specific repair and retrieval products are used together with the ordinary instruments within Astra Tech Implant System EV.

# Compatibility table

Identify the implant/abutment size for the implant.

Select the corresponding instruments;  
see the order number in the table below.
