

CONFIDENCE COMES FIRST

Elevate patient safety and clinical efficiency with the Class II single-use solution.

As your practice begins to emerge from this global crisis, ensuring confidence in your patients and clinical team is likely a key priority.

At Dentsply Sirona, we know that your patients may be waiting to address their restorative concerns. We understand their concerns in these uncertain times. And as you work through your backlog of appointments, we're here to help you minimize risk and alleviate worries.

Our unique Class II Total Practice Solution™ offers single-patient use products across the complete restorative procedure.

Because our products are single use, patients can feel you're doing all you can to minimize risk of cross-contamination. In addition, such products are a smart way to anticipate possible stringent regulatory changes initiated by the aftermath of COVID-19.

Healthy Practices, Healthy Smiles start with a Class II product lineup designed for safety, efficiency and predictable outcomes.

Palodent® 360
Circumferential Matrix System

Prime&Bond elect®
Universal Dental Adhesive

SDR® flow+
Bulk Fill Flowable

TPH Spectra® ST

To see how the Class II Total Practice Solution™ supports your goal of delivering patient peace of mind and the highest level of dental care, visit www.class2restorations.com

Deliver patient confidence and efficient clinical outcomes with the single-patient use products of the Class II Total Practice Solution.™

Discover how a simpler, more predictable Class II procedure can also offer a higher level of safety with products featuring disposable, single-use designs.

Midwest Once® Sterile Carbide & Diamond Burs

Single Use

Our high-quality burs are individually packaged and sterile to minimize infection risk. Ideal for improving the consistency and durability of restorations.

Palodent® 360 Circumferential Matrix System

Single Use

Featuring the industry's only single-use design with no applicator or retainer required.

- Pre-contoured bands for natural contours and tight contacts
- Available in three sizes and compatible with Palodent® Plus sectional matrix system
- Compatible with autoclaveable Palodent® Plus ring

Wedges

Single Use

Compresses on entry and flares upon exit for easy placement and seal

Prime&Bond elect® Universal Dental Adhesive

Single Use

Clinically-proven PENTA* technology chases away water, enabling a strong and durable bond with virtually no sensitivity.

- Low viscosity
- Cures clear

SDR® flow+ Bulk Fill Flowable

Single Use

Unsurpassed performance from the most-researched bulk fill flowable that also provides simple, safe placement from its single-use compula tip

TPH Spectra® ST Universal Composite Restorative

Single Use

Using our simplified CLOUD shade matching system, this durable, stain-resistant composite provides efficient esthetics with excellent adaptation and sculptability, without sticking to instruments

Enhance® Finishing System

Single Use

Simple and effective excess removal, contouring and finishing. Also available in Enhance® mini for improved access and versatility in miniature shape.
