

## CONFIDENCE COMES FIRST

Delivering peace of mind. Every patient. Every day.

Protecting patients from infection and cross-contamination is fundamental to promoting a lifetime of oral health. At Dentsply Sirona, we're here for you as your practice begins to emerge from the current global crisis.

Count on a wide array of solutions designed to maximize your infection prevention efforts and enhance patient safety in Class II restorative procedures—including many single-patient use products.

Healthy Practices start with confident clinical teams, leading to more confident patients with Healthy Smiles. The products in our PracticeProtect™ portfolio and Class II Total Practice Solution™ help you deliver patient safety and efficient clinical outcomes.

# PracticeProtect™

Infection prevention products across the entire operator

## Com-Fit® Masks

Choose the ideal mask for filtration, breathability and comfort.

- Exceeds ASTM performance requirements for bacterial and particle filtration
- Variety of masks for protection across every procedure

## FlashTips®

Disposable Air/Water Syringe Tips

High-quality syringe tips with separate channels designed to help minimize air and water crossover.

- Minimal damage and wear to O-rings
- Disposable for less risk of cross-contamination

## VoloWipes®

Disinfecting/Deodorizing/Cleaning Wipes

Featuring a two-minute kill time on bacteria, tuberculosis and viruses.\*

- 19% larger wipe than standard wipes\*\*
- Low pH alcohol and quaternary ammonium formula

## Resurge®

Instrument Cleaning

Combining the Resurge® Ultrasonic Cleaner with Resurge® Instrument Cleaning Solution.

- Ultrasonic cleaner powerfully removes protein and features a low-profile, easy-to-lift design
- Cleaning solution helps protect instruments' passive layer to reduce stains, spots and even rust

## Sporox® II

Sterilizing & Disinfecting Solution

High-level disinfection of semi-critical devices that are heat sensitive.

- Powerful hydrogen-peroxide-based formulation without irritating glutaraldehydes
- Easy-to-use with no special ventilation required

## Purevac® HVE System

A single instrument for evacuating aerosols, splatter, fluid and debris.

- 135% greater removal of fluids than a low-volume saliva ejector\*\*
- Provides visibility, illumination and suction

## Purevac® SC

Evacuation System Cleaner

Formulated specifically for systems with amalgam separators.

- Neutral pH formula meets new EPA guidelines for evacuation line cleaners
- Removes a wide range of dental debris

## Purevac®

Auto Walkabout Dispenser

Delivers better suction and longevity for dental evacuation systems.

- Easy-to-use design
- Holds enough solution to clean three operatories and one cuspidor

## Nupro Freedom®

Cordless Prophy System

Lightweight handpiece reduces wrist strain and helps control infection.

- Autoclaveable parts for exceptional sanitation
- Adheres to CDC Infection Prevention Guidelines

## Nupro RDH®

Hygienist Handpiece

Ergonomic, lightweight design with a 360° cord for easy access. Autoclaveable parts control infection risk.

- Protects clinician & patient from splatter
- Nonslip grip

# Class II Total Practice Solution™

Single-use products\* for patient safety and efficiency across the complete restorative procedure

## Palodent® 360 Circumferential Matrix System

### Single Use

Featuring the industry's only single-use design with no applicator or retainer required.

- Pre-contoured bands for natural tight contacts
- Available in three sizes and compatible with autoclaveable Palodent® Plus ring

## SDR® flow+ Bulk Fill Flowable

### Single Use

Unsurpassed performance from the most-researched bulk fill flowable that also provides simple, safe placement from its single-use Compula® Tips.

## Wedges

### Single Use

Compresses on entry and flares upon exit for easy placement and seal.

## TPH Spectra® ST Universal Composite Restorative

### Single Use

Using our simplified CLOUD shade matching system, this durable, stain-resistant composite provides efficient esthetics with excellent adaptation and sculptability,

## Prime&Bond elect® Universal Dental Adhesive

### Single Use

Clinically-proven PENTA\*\* technology chases away water, enabling a strong and durable bond with virtually no sensitivity.

- Low viscosity
- Cures clear

## Enhance® Finishing System

### Single Use

Simple and effective excess removal, contouring and finishing. Also available in Enhance® mini for improved access and versatility.

## Midwest Once® Sterile Carbide & Diamond Burs

### Single Use

Our high-quality burs are individually packaged and sterile to minimize infection risk. Ideal for improving the consistency and durability of restorations.

## Midwest® Low Speed Air-Driven Motors

### Autoclaveable

These versatile low speed motors afford simple heat sterilization between patients to help you comply with CDC sterilization guidelines.

- Ergonomic design
- Optimal polishing speeds
- Simple, universal e-type connection for rapid attachment changes
