Parent Company Emissions Reduction Targets

Dentsply Sirona has adopted the following carbon reduction targets:

- Net Zero greenhouse gas emissions across Scopes 1, 2 and 3 by 2050.
- Reduce absolute Scope 1 and Scope 2 GHG emissions by 42% by 2030 from a 2024 baseline, including 100% renewable electricity across manufacturing locations by 2030.
- Engage key suppliers to improve Scope 3 data quality and implement targeted reduction actions. This is not a quantified Scope 3 reduction target.

The 2030 Scope 1 and Scope 2 target is approximately 18,465 tCO2e, 42% below the 2024 baseline of 31,836 tCO2e. No quantified Scope 3 reduction target is stated.

Carbon reduction projects

Completed Carbon Reduction Initiatives

Dentsply Sirona has implemented energy-efficiency projects, increased renewable electricity use, site energy-management plans, selected use of biogas, shipping-route optimisation, Scope 3

inventory development and supplier engagement. Relevant measures will remain in effect when performing the contract.

Scope 1 and Scope 2 emissions decreased from 31,836 tCO2e in 2024 to 27,719 tCO2e in 2025, a 12.9% absolute reduction.

Future carbon reduction initiatives

Future initiatives include further Scope 1 and Scope 2 reductions, renewable electricity, energy-efficiency projects, improved Scope 3 data and supplier engagement.

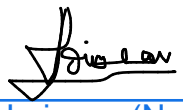

Declaration and Sign Off

This Carbon Reduction Plan has been completed in accordance with PPN 006 and the associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported in accordance with the GHG Protocol Corporate Standard. Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, where applicable, and the required Scope 3 categories have been reported in accordance with the Corporate Value Chain (Scope 3) Standard.

This Carbon Reduction Plan has been reviewed and signed off by the board of directors (or equivalent management body).
