<b>Master Classes / Lecture &amp; Hands-on</b>	
<b>Cadaver course</b> Mastering the surgical techniques around implant therapy <b>Speaker:</b> Rodrigo Neiva	
<b>Pig jaw course</b> Implant site preservation and development for increased efficiency and improved clinical outcomes <b>Speaker:</b> Fred Silva	
<b>Predictable digital workflows from single tooth to full arch treatment</b> <b>Speakers:</b> Farhad Boltchi, Dan Butterman	
<b>Master Classes / Lecture</b>	
<b>Practice growth in a changing dental market</b> <b>Speaker:</b> Gary Jones	
<b>The conus digital protocol—a novel, predictable concept for the edentulous patient</b> <b>Speakers:</b> Barry Goldenberg, Conrad Rensburg	
<b>Advanced esthetics using conometric and digital connectivity</b> <b>Speakers:</b> Steven Campbell, Dimitris Charoulis, Ernest Cholakis, Marco Degidi	
<b>The application of CBCT and the connection for oral systemic health considerations</b> <b>Speakers:</b> Mia Geisenger, Maria Mora	
<b>The digital dental practice—driving practice efficiency through technology</b> <b>Speakers:</b> Jenny Apekian, Stephanie Guitierrez	
6:30–8:30 PM	<b>WELCOME RECEPTION</b>

### FRIDAY June 14, 7:30 AM–5:30 PM

7:30–8:30 AM	Breakfast	
8:30–10:15 AM	<b>Top destinations in implant dentistry</b> Inspired by truly phenomenal places and the various ways to get there, we know that great dentistry is equally inspiring. Let's experience the excitement and fulfillment of implant dentistry excellence through truly remarkable case presentations. Together we will explore what truly great dentistry looks like, what it means to the patient and what it takes to get there. <b>Moderator:</b> Lyndon Cooper <b>Speakers:</b> Christopher Barwacz, Anne Benhamou, Marco Degidi, Oliver Pin-Harry	
10:15–10:30 AM	<b>News &amp; Facts TALKS</b> Get the latest news and facts from the world of implant dentistry in the equivalent of speed dating—15 minutes full of excitement and inspiration. <b>Speakers:</b> Mark Ludlow	
10:30–11:00 AM	Coffee break	
11:00 AM–12:00 PM	<b>Journey to implant treatment success</b> The best journey does not always follow the envisioned path. The implant treatment journey is no different with unexpected detours and surprises. What is dental implant success, how do we view success through the eyes of the patient, and what can we do to make the patient experience journey successful, positive and memorable. Let's discover how dentists find alternative routes and the smooth road to implant success. <b>Moderator:</b> Malene Hallund <b>Speakers:</b> Lyndon Cooper, Gary Jones, Nadja Nänni	
12:00–12:30 PM	<b>Battle #1 Biomaterials vs implant selection</b> Get ready for a battle, with two speakers debating one hot clinical topic. Who's right, who's wrong? It's your decision, your vote, your voice—the countdown is on, place your bets now. <b>Moderator:</b> Mark Ludlow <b>Speakers:</b> David Barack vs Rodrigo Neiva	
12:30–1:30 PM	Lunch break	
1:30–2:30 PM	<b>The importance of DNA in implant design</b> Let's look at the importance of history, design and the common DNA of dental implants, and how these elements contribute to long-term function, and esthetics—always with science, nature and biology in mind, and always with a passion for progress. <b>Moderator:</b> Tara Aghaloo <b>Speakers:</b> Anthony Bendkowski, Michael Norton, Stefan Vandeweghe	<b>Implant complications and esthetic results</b> Complications in implant dentistry are an inevitable clinical reality. Imagine a patient with a failing implant in the esthetic zone—how do we manage the complication, can we solve the initial problem, and can we prevent this from happening in the first place? <b>Moderator:</b> Anne Delisle <b>Speakers:</b> Peter Gehrke, Mark Montana, Varisha Parikh
2:45–3:45 PM	<b>Oral health and the role of the patient</b> The mutual dependence of systemic and oral health is well known and requires holistic thinking. Using a multidisciplinary approach to diagnosis and treatment planning provides better understanding to meet the needs of the patient and deliver a successful end result. <b>Moderator:</b> Clark Stanford <b>Speakers:</b> Christian Mertens, Sanne Werner Möller Andersen	<b>Practice management</b> Growing the business and the practice is key to long-term success, both for the dentist and current and future patients. The roads to successful practice growth can be the digital journey, the referral network, and long-term sustainability. <b>Moderator:</b> Ingeborg De Kok <b>Speakers:</b> Ernest Cholakis, Jeremy Ueno
3:45–4:15 PM	Coffee break	
4:15–5:30 PM	<b>The virtual journey</b> How do we provide implant treatment to more patients? The answer is simple—digital dentistry. With digital dentistry, we can define the final desired result and plan the treatment needed to achieve it. In the new digital universe, discover the expanded solutions that digital connectivity provides and see the transformation of the patient journey. <b>Moderator and speaker:</b> Martin Wanendeya <b>Speakers:</b> Steven Campbell, Eimear O'Connell, Andrea Parpaiola, Marco Toia	
7:00–11:00 PM	<b>NETWORKING EVENING</b>	

### SATURDAY June 15, 8:00 AM–3:00 PM

8:00–9:00 AM	Breakfast	
9:00–10:00 AM	<b>The Monday morning patient</b> You had a great weekend, you wake up on Monday morning, refreshed and ready for your work week. You arrive at your practice and there he is—the unknown patient that you had not planned for. Join the journey from initial assessment through planning and treatment illustrated by interactive and dynamic case presentations involving clinical and medical decisions, hosted by a panel of experts. <b>Moderators:</b> Lyndon Cooper, Malene Hallund <b>Speakers:</b> Mischa Krebs, Alberto Monje, Joe Schmidt, Stijn Vervaeke	
10:00–10:15 AM	<b>News &amp; Facts TALKS</b> Get the latest news and facts from the world of implant dentistry in the equivalent of speed dating—15 minutes full of excitement and inspiration. <b>Speaker:</b> Alberto Monje	
10:15–10:45 AM	<b>Battle #2 Implants for life—is it possible?</b> Get ready for a battle, with two speakers debating one hot clinical topic. Who's right, who's wrong? It's your decision, your vote, your voice—the countdown is on, place your bets now. <b>Moderator:</b> Mark Ludlow <b>Speakers:</b> Tara Aghaloo vs Sausha Toghreghar	
10:45–11:15 AM	Coffee break	
11:15 AM–12:15 PM	<b>Preventing peri-implantitis for long-term peri-implant health</b> Today we are treating younger patients with dental implants and the meaning of 'lifelong' has changed significantly. How can we maintain peri-implant health over decades and what can we promise our patients? Let's learn from the literature, consensus meetings, and practicing clinicians. <b>Moderator:</b> Stijn Vervaeke <b>Speakers:</b> Jan Derks, Ignacio Sanz-Sanchez	<b>Don't try this at home</b> Everyone has a patient case that didn't turn out as planned. Every dental professional has a skeleton in their closet and now it will be revealed. We will discuss worst cases and we need your expertise and help—how would you act in these situations? <b>Moderator:</b> Mark Montana <b>Speakers:</b> Anthony Bendkowski, Mischa Krebs, Jack Marrano
12:25–12:40 PM	<b>News &amp; Facts TALKS</b> Get the latest news and facts from the world of implant dentistry in the equivalent of speed dating—15 minutes full of excitement and inspiration. <b>Speaker:</b> Michael Norton	
12:40–1:30 PM	<b>Creating the future together</b> The future is a continuous journey led by our shared passion for implant dentistry and a commitment to science, documentation, education, innovation, and quality of life. Before we go back home, inspired to do even more for the patients that need our help, committed to working even smarter together with our teams, let's look at how we can create the future together.	
1:30–3:00 PM	<b>LUNCH &amp; NETWORKING AFTERNOON</b>	

Join the world-leading experts in implant dentistry for this exclusive, state-of-the-art congress in Miami, FL, USA.

Discover cutting-edge science, the latest innovations in digital dentistry, bone regeneration, and optimized implant treatment solutions for your patients—and enjoy the company of world-renowned speakers, colleagues and friends from around the world.
